California Land Bureau.

The *Stockton Newspaper* has this following description of the possession of Miller Lemmon and proprietors Miller & Lux. Their bonded domain of sixty eight miles and this body is from five to forty miles wide. On the coast so they have other smaller tracts. Henry Miller Esq who takes personal charge of the total estate of the firm and to other parts of the State displays a wonderful executive ability and furnishes employment to hundreds of men. He has what is known as the "Home Ranch" and the "Canal Ranch" besides several dairy ranches on this body of land. He keeps an army of carpenters, wagon makers, fence builders, teamsters, farm hands, etc. constantly [illegible] and he knows what all [illegible] about. This year the average of [illegible] is not so large as in some former years, being about 800 [illegible] the [illegible] 3000 head of [illegible] which [illegible] upon the ranges [illegible] to the Sacramento River [illegible] 1100 across [illegible] We are informed by one of Miller [illegible] that there were five strings of [illegible] the land each sixty eight miles long besides the vaqueros from [illegible] given notice of the cattle belonging to this young land [illegible] were informed that this year they [illegible] 20,000 calves. As far from being a large interest in the San Joaquin and King River Canal which [illegible] the mouth of Tuolumne Slough [illegible] creek a distance of fifty miles. Miller & Lux are also continuing [illegible] on the east side of the San Joaquin which is bordered by lakes water [illegible] the numerous sloughs in that region and overflow the pastures land in the dry season. The month of Salt's Mill from Camp Slough in Merced and above Hill's Ferry and five miles up this stream should run at Miller's warehouse, which has a storage capacity of 1000 tons of wheat and which is on twenty miles from his principal warehouses.

Journalism in 1776.

There was no daily newspaper in the time of the Revolution. Of the 37 papers which were then published between 1704 and 1775 all were weekly or semi-weekly. There were forty three such in existence at the end of the war. They were generally viewed in the light of the pamphlets to be but semi-occasionally [illegible] displayed considerable enterprise and spirited in moment of emergency. It was their boast that they since had no much to print the news. The Pennsylvania Packet in which they were published bring to that locality news from all parts of the country and of the world. In fact the newspapers of the Revolution had comparatively little to do with news of any kind. The gathering of it had not been reduced to a system. The publisher was the editor and reporter. There were no telegraph bills to pay and he had to learn the world have [illegible] money which he have paid them. Newspapers [illegible] by private subscription. It was twice [illegible] to be a Congressional [illegible] That [illegible] was by the individual [illegible] to double [illegible] the city. He [illegible] in the [illegible] friends [illegible] services. The paper were filled with political [illegible] and [illegible] By many of the [illegible] the liberty of the nation was all [illegible] and [illegible] to the front work in speculation. Of [illegible] in the mind in one of the [illegible] enterprising [illegible] by and [illegible] the high [illegible] and [illegible] fully [illegible] the world [illegible] Not [illegible] must [illegible] the Revolution [illegible] stories that they were the [illegible] of [illegible] in that region and overflow the pastures land in the dry season. The month of Salt's Mill from Camp Slough in Merced and above Hill's Ferry and five miles up this stream should run at Miller's warehouse which has a storage capacity of 1000 tons of wheat and which is on twenty miles from his principal warehouses.

A Baby.

The following is no less admirable as a description of a baby than as an example of a loose sense of the proper place at which to put a full stop. Did you ever watch a dear little baby walking from its morning nap? It comes of the prettiest sight in the world. There is the crib with its small preparations and snow white drapery that covers nothing confined round and plump. There is nothing to reveal what it is not the slightest movement of the pillowed whiteness that is visible. A sound to indicate the most [illegible] until the hour hand of the clock [illegible] stands sentinel. Like you will be made the client. Then there is a [illegible] peeping in the white drapery [illegible] pink, tremulous hand [illegible] bud, is thrust out and from the nest thus broken into [illegible] round dimpling face with wide open eyes that have not much speculation in them yet. Soon however they come to stare and become quite [illegible] as if wondering what kind of a world it is they open up in and the head lifts itself for a little and two snow white feet are drawn up and finally with a somersault movement in each of which have an attend at dimple that the head is to have it falls back on the pillow with its own sweet weight the hair all damp and golden the cheeks peachy the mouth pouted as if the angels kissed it in dreams. The first lingering glance come safe in the rosy depths sweeter than any bird's song for it has a spirit tone and returns a thrill of the native skies. Then the baby hands are lifted implicitly positively the baby knows who and knows to be an angel.

The Carson *Appeal* paternally advises unemployed men to buy ranches from the government at a dollar and a quarter an acre, make homes for themselves and work for themselves. Such advice always looks well in print and seems at first glance to be perfectly reasonable. But how are men who have not a single hundred dollars to the world going to pay for 160 acres of land? Land is dear and it will then support themselves and have a surplus. Do you not first have the work to earn the money to buy the land? And even if they take a farm under the homestead law they must have money to improve it in order to make it show. It is very sound policy small farms and many thrifty homes. They are what make a country prosperous, and hold a check upon the suggestions of aggregated capital and the growth of aristocracy. But it could comfort to preach the time to men who are looking for an opportunity to earn money for that self same purpose. There will always be a surplus of men who will work with the capital of others. Any considerating for the assistance and advancement of such men is always pertinent and thankfully received by the men themselves. At the same time it is the best sort of political economy to advance small capitalists—persons with from a thousand dollars upwards—to make homes for themselves and become independent responsible citizens.—*Lake County Times*

Continental times have so revived the memories of a hundred years ago and caused admiration for the institutions of the older times, that in New [illegible] are organizing four-horse [illegible] lines for travel and recre-

It is Sargent's purpose at the first opportunity to continue to press his Senate resolution requesting the President to negotiate a modification or abrogation of the immigration and equal privileges articles of the Burlingame Treaty, although the Senate has already, on his motion, directed the Committee on Commerce to report to the necessary legislation to restrict Chinese immigration regardless of existing treaty stipulations. It is said by eminent jurists to be well settled by the Supreme Court decisions that Congressional legislation, approved by the President, can overrule the previous engagements of treaties, but Sargent's pending resolution and Pago's forthcoming proposition will, for abundant precaution, treat this question as doubtful, and I advocate all objections of that kind by inviting the Chinese Government's consent.

Representative Page, will on Monday offer for passage, under suspension of the rules, a joint resolution, prepared by him several days ago, requesting the President to direct our Minister in China to submit as an additional treaty, an article that the United States reserve as a right, through its legislative department, to regulate, restrict or totally prevent the immigration of Chinese into this country, and that the Chinese Government may exercise a similar power, anything in the present treaty to the contrary, notwithstanding.

WHAT THE WORLD WANTS

A NEW INVENTION, WHICH SPECIALLY supplies the wants of the Pacific States, has just been perfected and shaped into a regular WELL-BORING AND PROSPECTING AUGUR. It is constructed on purely scientific principles, and its perfect simplicity of formation well adapts it to all kinds of wellboring and mining purposes. By its use the expense of obtaining water throughout the dry portions of the country, in surface or artesian wells, will be greatly reduced, and for prospecting for minerals it will necessarily supercede all other machines now in use.

This simple and practical machine can now be seen at work and thoroughly examined at Oakland Point Planing Mills. One-third interest in this valuable Patent is for sale.

N. B.—On the 19th day of April 1876, at which time we were satisfied that the invention was perfected, we invited a well known scientific gentleman of San Francisco to examine it, and on the following day this gentleman, who has been a Professor of [illegible] of the University of Edinburg and of other prominent colleges at the East in our own country, voluntarily sent us the following letter, which we are pleased to print:

No 130 SUTTER ST., SAN FRANCISCO, CAL., April 20th, 1876.

MESSRS. PRICE & MORGAN—Dear Sirs—Having at your request examined and practically tested your machine, I take great pleasure in bearing testimony to its value for wellboring. Such a result could only have been obtained from mature experience of the difficulties to be met with, combined with mechanical skill to devise an appliance so novel as the screw in the bit, and a certain auger, worked by a powerful screw, by which the entire system of wellboring is changed, facilitated and cheapened, and by these simple devices bringing within the means of the struggling miner, by a small outlay, a machine which will work in all kinds of ground, and which will last for years with little expense for repairs

Enchanting.

A problem in the solution of which much study and labor have been given during the last few years by scientific men is that of preserving the remains of the dead. The embalming of Dr L Dexter Lyford of San Francisco is acknowledged to be the most thorough and artistic process in use. The lifelike appearance and natural appearance are unsurpassed. Dr Lyford's name stands at the head of embalmers and it is doubtful whether he has his equal in the United States.

A Narrow Escape

This morning about 9 o'clock as a train was approaching the Broadway depot a gentleman rashly endeavored to cross the track but miscalculated his time for the cow catcher of the engine struck him on the leg near the ankle throwing him several feet from the train and thus saving his life. Fortunately he escaped without serious injury though his leg was badly bruised and it will doubtless be some days before he recovers from the shaking and fright he received.

Amusing.

It was amusing to witness the rush made at the clerk's desk on the adjournment of the Board of Supervisors to-day. The rush was for the purpose of inspecting the handwriting on the ballots cast for County Treasurer as the ballots were still lying upon the desk. And the scramble our reporter heard the words fell down but whether a ballot had fallen upon the floor or upon the wrong side we did not stop to inquire. However the majority of at least two Supervisors was not fully satisfied as they could not recognize the handwriting upon any of the ballots except those written and cast by themselves.

A Wealthy Mine.

This morning Dr L P Barber showed a Tribune reporter some specimens of very rich ore received from the Modoc Consolidated mine Inyo county. In all this mine contains about nine different veins five of which are in the claim of the Modoc Consolidated. Dr Barber informed our reporter that his brother, the Superintendent had pushed a drift 200 feet and raised 40 feet up on the Confidence No 1 and another 80 feet on the Lookout lead, with ores out of twelve feet on the lead without striking the walls. The Doctor also stated that seventy men are now engaged making work for Darwin and six men employed in prospecting the mine are taking out ores enough to more than pay expenses four times over. The road will be completed this month and three furnaces will be erected at once for smelting that there are over 3,000 tons of ore now ready for smelting. Another company has recently been organized by the Directors of the Modoc Consolidated under the name of South Modoc to work the claims upon the west side of the hill, which also give promise of great wealth, and an order is to be sent to day to the Superintendent to put ten men at work in taking out that ore. Dr Barber owns a large interest in the mine and intends to hold it and he may be congratulated on his excellent prospects.

Police Court.

This morning the case of John Brady, accused of malicious mischief in tearing down a fence of which possession is disputed was called up. The evidence was conflicting and His Honor held the matter under advisement until to morrow morning.

John Diamond appeared to answer a charge of being drunk, he stated that he had been at Badger's Park yesterday and after buying his ticket, was refused admittance, he thought was very hard and was sure he was not drunk. Oh, no! he was not drunk. His Honor thought some men might be drunk without knowing it and, though Diamond protested that when he was drunk he always knew it, fined him $6 or three days imprisonment. F Mequait admitted the charge of being drunk and was likewise fined $6 or three days in jail.

Joseph and James Rodgers, charged with misdemeanor having been liberated on bail failed to put in an appearance when called. The bail was therefore declared forfeited.

M O'Shea and O Doherty were each fined $6 or three days in jail.

J. F Kelley charged with an assault upon Lippman and with struggling with an officer while in his charge, thought that the prosecuting testimony was "too thin." The witness against him stated at that a people yesterday he had used very bad language and struck two people, in fact that he was "spilling for a fight." Kelley did not think it very likely that he was going to pitch into a crowd of four or five men, and as he had no witnesses present asked for a continuance of both cases until Thursday next, which was granted. Bail of $50 on the first charge had been given last night, and was increased another $50 for the second.

BOARD OF SUPERVISORS.

C. E. PALMER ELECTED COUNTY TREASURER.

The Candidates—Leave of Absence—County Infirmary—An Indigant Woman—Road Viewers Appointed—Ocean View Roads—Bills Allowed More "Hilarity"—Etc.

The Board of Supervisors assembled at 10 o'clock this morning, President Case in the chair. Present Full Board and Deputy Clerk L C Farley.

The minutes of previous meetings were read and approved.

ELECTION OF COUNTY TREASURER

President Case said there was some special business to be attended to, and inquired if the Board would go on with the regular business or suspend the rules.

Supervisor Shattuck moved that the rules be suspended and that the Board proceed to the election of a County Treasurer, to fill the vacancy occasioned by the death of Joseph E Atwood.

President Case stated that in order to place the name of a candidate legally before the Board, it would be necessary to present a petition signed by at least thirty tax-payers of the county.

BALLOT FOR PALMER

Judge Stephen G Nye came forward and said that he wished to present a petition signed by nearly three hundred tax-payers and citizens praying for the appointment of Charles E Palmer. Judge Nye added that before Mr Palmer could consent to the use of his name in connection with the position he (Judge Nye) had signed a petition in favor of the appointment of another gentleman with the understanding however, albeit not in writing that his signature to the other petition was to go for naught in case Mr Palmer should consent to be a candidate. The Judge then paid an eloquent tribute to Mr Palmer saying that in honesty and integrity he was the peer of any man in the county and that his experience qualified him peculiarly fit for the position.

The petition was signed by Thomas Vollard S H Mather Perry Johnson William D Harwood Geo W Bates W S Harlow Judge Tordell, Assemblyman Biggs H P Livermore J J M Worthy R S Farrells Sales McClure J B Pendleton Fred Gerstenberg J T Hilliott Judge Stephen G Nye and about 280 others.

CHARGES

A petition praying the Board to appoint C J Stevens to the office of County Treasurer was signed by A W Bishop J P Campbell James A Booth M L Dornbury General O H Dutton R Chabot, A J Sender J L Wetmore, L M Brandry Senator Bizzell and many others.

SAMUEL T MARSTON

A petition was also read praying the Board to appoint Samuel T Marston to the office of County Treasurer. This petition was signed by E L Board John Lovejoy C B Bathelot Hon Nathan Porter, J B Harmon, Mayor E H Pardee Alexander Campbell and many others.

When the nominations had closed, Mr Marston came forward and after referring to Judge Nyes remarks touching Mr Palmer's extraordinary qualifications and capability, said that he wished to withdraw the petition in favor of himself, and was permitted to do so.

President Case then appointed Supervisors Pumyea and Alviso as tellers and the first ballot resulted as follows: For Mr Palmer four votes, for Mr Stevens, three votes—whereupon Mr Palmer was declared duly elected to the office of County Treasurer to fill the unexpired term of the late Joseph Feeley.

Some minutes and discussion ensued as to the proper proceedings necessary to be had to induct Mr Palmer into office which ended by the adoption of a motion made by Supervisor Shattuck that the County Judge the President of the Board and the County Auditor be authorized to induct him into office when on the bond he has elect shall have filed the proper endorsement and taken the oath of office.

Mr Shattuck then moved to adjourn for two weeks, but subsequently withdrew the motion.

LEAVE OF ABSENCE

Supervisor Burnham asked and was granted leave of absence from the Board and from the State for sixty days.

MORE ROOM WANTED

Supervisor Burnham stated, by request of Fred Gerstenberg, Superintendent of the County Infirmary that that institution is now full, with the exception of two wards for women, and that Mrs Williams, an indigent but amiable bedried woman, had been discharged.

AN INDIGNANT WOMAN

Supervisor Burnham reported, in regard to the matter of the Baker family, that the old gentleman had recovered sufficiently to be about and had requested him not to pay the nurse her second bill, as he (Baker) had settled with her himself and did not wish to accept charity from the county. Supervisor Burnham found, upon going to stop the issuing of a warrant that the woman had already drawn the same, and had expressed great indignation because it did not call for gold coin. He also stated that Mr Baker did not want the county to pay the bills of the two physicians who waited upon his wife and family during their affliction, as he would also settle these bills.

Some discussion was had in relation to instructing the District Attorney to commence legal proceedings against the woman to recover the warrant, but no action was taken.

ROAD VIEWERS APPOINTED

On motion of Supervisor Overacker, Stephen W Miller, L M. Carr and County Surveyor Castro were appointed viewers for the proposed new road—sixty feet wide and three and three-fourths of a mile long—across the lands of Peter Searsey and others in Rosedale Road District, to a coal vein recently opened.

OCEAN VIEW ROADS

Judge Van Voorhies appeared and asked that the petition of the property-holders of Ocean View Road District for the issuance of bonds to the extent of $40,000, to be expended in macadamizing the roads of that district, be taken up and acted upon, and stated that the petitioners were very anxious to have the matter disposed of.

Supervisor Shattuck said the new road law authorized the Board to issue bonds, under certain conditions, whenever the owners of a majority of the taxable property in a district should petition for the same, but that in this case there was no other evidence that a majority of the property was represented by the signers than the mere assertion in the body of the petition that such was the case.

Judge Van Voorhies thought it devolved upon the Board to ascertain whether the signers did really represent a majority of the property, inasmuch as if each signer had stated that he represented so many acres of land it would not alter the case, as it might still be a matter of doubt in the minds of Supervisors whether the total constituted a majority of the taxable property in the district.

Supervisor Shattuck considered the matter a very important one. This petition merely says the money is to be expended in "macadamizing the roads in the district, without designating what particular road or roads.

On motion, the matter was postponed until the next meeting, at which time, Mr Shattuck intimated he would make a report on the petition.

MORE "HILARITY"

On motion of Supervisor Mahan, the following opinion of the District Attorney was taken up and read:

To the honorable Board of Supervisors—Gentlemen: In the matter of the claims of the Grand Jurors for services at April Term of County Court, I would report that your position is technically correct. You can compel a juror, grand or trial, to make an affidavit to his claim.

This course, however, is subject to the objections.

First—That it has established by the Clerk, which is the basis of the claim cannot be made out until some time after the jury has been discharged. It would be unjust to compel jurors living at a distance to wait over a day for receipt of said certificates.

Second—I think that the certificate of the Clerk, as to the number of days attendance, and the certificate of the Sheriff as to mileage, more conclusive evidence of said attendance and mileage than the affidavits of the jurors themselves. The certificates of these officers would be the only *proof* the Board could have of these facts.

I see no objection to the course that has hitherto obtained in these matters. On the contrary, it is the most convenient and safest plan that could be adopted for facility and safety in determining this matter. But is a matter of strict technical construction the Board can compel the taking of the affidavit.

JOHN R GLASCOCK
District Attorney

May 10 1876

On motion the bills of the Grand Jurors were then allowed. Hence, more hilarity—on the part of the Board of Supervisors because they had the best of the little difference on the part of the Grand Jurors because their bills were allowed.

BILLS ALLOWED

In addition to the bills of the Grand Jurors, Supervisor Alviso was allowed $130 80, for services rendered the county as a Supervisor outside of the Board. Stobel & Neudeck were allowed $194 32 for supplies furnished the county infirmary and Dr George E Sherman was allowed $50, for professional services in the Costello poisoning case.

The Board adjourned for two weeks.

Those Picnics.

Yesterday morning crowded trains passed through our city carrying large numbers to the picnic grounds at Badger's Park and Alameda. That at Badger's Park was well attended and orderly. The music was good and those present enjoyed themselves in a quiet manner, which was creditable to the management, less of the hoodlum element than is generally the case interfering. There was also less drunkenness, though one helpless individual outside the grounds sadly needed the fostering care of our "guardians of the peace." Late in the day the picnickers might have been seen returning to their homes, and with but slight exception in an orderly manner, though as a train was leaving the Broadway depot about 5 o'clock two men the worse for liquor got into a quarrel with another, when one of the originators of the fight drew a knife and struck his friend over the face, cutting the eye and cheek badly. In addition to this four sore heads testified this morning in the Police Court that they had been picnicing.

Not so Bad to Take

A short time since the Rev R T Parshall, late of Oakland, obtained a judgment against P H Sumner, also formerly of this city, for $30,000 damages, and some of our exchanges "smiled audibly" at the idea inasmuch as it was thought Sumner had disposed of all his property before leaving the coast. In a recent conversation with the editor of the Healdsburg *Flag*, however, Mr Parshall informs that gentleman that $60,000 worth of property belonging to Sumner had been traced out, and that he expected to collect the money. A judgment of $12,000 in favor of Sumner, against solvent parties, is included in the sum stated.

Street Preaching.

Yesterday evening between 6 and 7 o'clock some gentlemen unknown for the welfare of their fellow citizens seeks attempted to overcome the indisposition and hold forth on the corner of Ninth street and Broadway collected a considerable crowd. While the speaker was going to work there was little if any opposition made but as soon as it was over a prominent citizen by inviting the orator moving him stopped the assistant preacher and put him through his catechism other style. Though he did not ask him a single question he was loud in demanding who the world he pilot was and whether he knew more of the way than the audience evidently considering himself highly insulted by any advice on any subject whatever. A certain class called "hoodlums" always infest our cities and are at all times ready and anxious for a fight in this case they did their best to stir up the feelings of the excessively sensitive and endurance. Fortunately the preacher kept his temper admirably and in so doing showed far better judgment than by the course he first pursued, which had placed him in the position of an angry man in a crowd on the streets with a drunken man. It is not a pleasant situation and it is to be hoped that the misguided intention of doing good by collecting a crowd to hold religious services on Sunday evening, when people are returning from pic nics with anything but the humor for such things, will be abandoned. Such exercises are anything but a credit to the city.

Another Body Found.

The body of a man was picked out of the bay, between Washington and Pacific street wharves San Francisco, Saturday morning. In one of his pockets was found a pocket memorandum for 1875 and from Amherst in the name of Dan Clay. He was a medium built man of about 55 years of age, and had red hair and full whiskers. He wore a suit of dark clothes and overalls.

THE QUEEN OF THE ROSTRUM.

One of the Greatest of American Women to Appear before an Oakland Audience.

We are pleased to know that some four leading citizens are to day putting forth efforts to induce Miss Mary A Livermore to deliver one or two lectures in this city before she leaves the coast. Mrs Livermore is one of the few very great women America has produced. Gifted with a genius almost divine, she has never sought notoriety for notoriety's sake, and during her long career as a public speaker, while thrilling tens of thousands with her eloquence and warming and winning them with her pathos, she has never for one moment ceased to be one of the most womanly and lovable of women. She fills a huge theatre and fashionable Sacramento audience spell bound for two hours on Friday evening last. Here is the following truthful picture of a lecture of the woman given by the Sacramento Bee, so little the real lecture is witnessed by as some years ago we gave it place in these columns.

Mrs Livermore is known throughout the country as one of the most [illegible] of the cause of temperance, and [illegible] of woman's rights. Her lecture last evening, the subject of which was "Woman's Work," was a most delightful one. It was a most entertaining and instructive lecture, and apparently all who listened to it were highly pleased with it. She is a most fluent and pleasant speaker, and her voice is very musical. Her lecture was marked throughout by a delicate and refined humor, and by a tender and pathetic vein

TELEGRAPH MINING COMPANY!

ON THE COMSTOCK LODE.

Capital Stock, - - - - - - - - $6,000,000

Divided into Sixty Thousand Shares of One Hundred Dollars Each, Twenty-five Thousand Shares reserved for Working Capita

THE TELEGRAPH MINING COMPANY, INCORPORATED UNDER THE LAWS OF THE State of California, April 19, 1876, has purchased 300 feet of rich gold and silver mining ground on the celebrated Comstock Lode, upon which are located the California, Consolidated Virginia, Ophir and other well known paying mines. The value discriminated between the Ophir, Crown Point and Chollar, taken from it yield a high return of gold and silver. The Directors have reserved 25,000 Shares of the Capital Stock of the Company for Working purposes, in order to avoid any tax of being compelled to assess the Stock. Ten Thousand Shares of the above stock will be offered at once for subscription at **ONE DOLLAR** per share. The balance of the stock will be disposed of from time to time through the Stock Boards, as the Directors may think most profitable for the working of the mine. Any information given in the Directors may think most profitable for the working of the mine. Any information given in the mean time, and the stock will be placed upon the Boards in San Francisco and will at once command a figure more than enough to pay the Dividends, and it is confidently believed that this value by comparison with the Comstock Lode and Decline proximity to the Utah stock will in a short time, which is shown per share as the last named mine commands, which would be an increase of twenty five hundred per cent on the price at which the stock is now offered. The Books will be opened for subscription, April 19th at the office of the Company, No. 420 Montgomery street, San Francisco.

Pungencies from Dr. Carr's Lecture.

Education is evolution. The great want of to-day is industrial education. The real worth of school education depends on the use it is put to in life. The less dead wood a pupil is loaded with the better for the great duty of life after all is to earn an honest living. The hands must be educated as well as the head to make our school system a paying institution. In our society, the control of everything has been wrung from capital and skill, the former will surely dominate unless the popular sentiment demands a change in our mode of school instruction. I am free to protest against loading the memory of the pupil with words that have no meaning to them. If one third of our school time was devoted to teaching something about the world we live in it would increase the value of our school a hundred fold. 'Mental dyspepsia' is mostly but another name for mental dyspepsia. As a class teachers are opposed to common sense school reform, and some one question rises of our Legislature and State Board. Teachers, stand not in the way of the coming reform but take your fair share of the trouble in bringing it about and you will participate in the glory of its success. I will tell you a secret we are going to have a new department in education when common sense will triumph over cruel and the book publishers. Teachers, be your own text-books as far as you can, single in as much scientific knowledge into your schools as possible—the education stands at the point of power, his is the highest office in the human economy.—*Nevada Transcript.*

—Few persons, even among owners and masters, realize the more than the size of ships which last sailed up the way of 1812. An English paper says that a list of vessels registered at the Custom House shows that the average tonnage of ships launched during the twenty years ending in the year 1821 was 242 tons, while in five ships recently on the stocks at Lloyd's Bank of Montreal the average tonnage the first thirty-two ships built at that place after the year 1869. The cost per ton is also much in excess of the old-time shipping, as only at times add to the demand and improvements in expensive outfittings. Two masts were launched a few days ago in the cars from Michigan, cost $7 00 each.

—The wise men of the N. Y. Sun has discovered that the excitement of whisky drinking drives far more people into carelessness than the excitement of religion. Unfortunately such is the case, especially in communities where there are no whisky shops to one church. There are some communities—North San Juan for instance—where it is impossible for people to become religiously insane, as there is no religion to make them crazy.

—The temperature of artesian water at the bottom of the Grand Central shaft is about 140 degrees. I hear that whether it comes from 2,000 feet or of the Imperial mine, will be cleaner and purer than water from shallow wells. It will not blister, and it is said gives one a very definite idea of the heat of the interior—must be.

—All things are relative to one man. Mr. Beecher has the ability to give better advice than anyone, but he is weak in his supply of examples.

REDUCTION IN GAS.

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

OFFICE OAKLAND GASLIGHT CO.

FIRST, 1875.

IN PURSUANCE OF THE POLICY FOLlowed by the Company since its formation viz: to lower its rates as rapidly as is warranted by the growth of the city, the price of gas will be reduced on the

1st Day of March Next

—TO—

$4 25 PER 1,000 CUBIC FEET

Considering the value of coal and labor, the limited use of gas and the distance between the places of consumption

Oakland will be the most cheaply lighted city in the Union

This price will leave no valid excuse for the use of any illuminant but gas. Go along the lines of the Company's mains a large part of which are now and have been since they were laid unproductive of income.

The advantages to be derived by the public from Cheap Gas are:

1st—Added comfort in the cost of one of the necessaries of life.

2d—A decrease in the number of defective fires caused by the use of the old style of Petroleum.

3d—A saving of human life by substituting gas in lights for the oil lamps.

4th—The most convenient and safest light brought within the means of the most economical consumer.

However small the house, the economy will be great. If the coal there of minimum will be lessened, if not at first the cost of less will be decreased.

This reduction can only be profitable to the Company, by the accession of a sufficient number of new consumers to compensate for the lessening of its entire receipts, and it will become the interest of all consumers of gas to induce their neighbors to adopt this light, in order that further reductions may be made in the future.

The attention of consumers is also directed to the use of gas for heating and cooking. In Europe and the Eastern cities it has been adopted to a great extent, and its use is constantly extending.

It is to be hoped that this movement will be accepted in the spirit which has inspired it, and which has always characterized the Company, viz:

That the Interests of Consumers and the Company are Identical.

The Company are constantly advised of all changes in modes of manufacture and distribution, and will at all times avail itself of any real improvements which tend to improve quality and lessen price.

CHRONIC DISEASES Cured. New paths marked out to Health by that planet of all books—PLAIN HOME TALK AND MEDICAL COMMON SENSE which contains nearly 1000 pages of original matter as entertaining as a fascinating story. Health and long life made easy for the learned and unlearned. Crammed full of brand **new ideas** which are cheering to the sick, and intensely entertaining to those who are fortunate enough to escape disease. It guards the reader against the pitfalls of human suffering, and points the way of deliverance to those who are already engulphed. By all means, find out all about it. **It is for you.** It's author, Dr. E. B. FOOTE of 120 LEXINGTON AVENUE, NEW YORK, is consulted by invalids at home and abroad, in person and by letter, and has had the experience of nearly **a quarter of a century** in the treatment of long standing and difficult diseases of every character; hence his ability to write practical truths for the invalid reader. His consultations are free to the sick everywhere; hence his immense correspondence with the sick all over the globe. YOU READER, ARE AT LIBERTY TO CONSULT the able author of Plain Home Talk and Medical Common Sense. Write to him and you will be struck with his Common Sense. Whatever your malady, you will receive light which will do you good by investing only a postage stamp, and writing to Dr. F. We wish to interest you in both the doctor and his immortal book. **The book** itself, which gives satisfaction to all who read it, can be had of agents, or of the publishers direct. Plain muslin binding $3 25 in the English or German language. Library binding, in English only, $3 75. Sent by mail, postage prepaid, on receipt of the price. One reader says—"I have found it to be one of the grandest works of the age." Another says—"I would not be without it for twice its cost." A physician writes—"I am thankful that there is one man in America who has the ability and nerve to tell suffering humanity what they want." A lady writes the author and tells him—"I have always felt that you were the physician of the world, from the fact of your wonderful success and *original ideas.*" We could fill this page with similar testimonials to the author and to the work. *Contents table sent free.* Send for it.

Summons.

IN THE DISTRICT COURT OF THE Third Judicial District of the State of California, in and for the County of Alameda.

WILLIAM JONES, Plff vs DANIEL BLACK, Deft.

Action brought in the District Court of the Third Judicial District of the State of California, in and for the County of Alameda, and the Complaint filed in said County of Alameda in the office of the Clerk of said District Court.

The people of the State of California send Greeting to Daniel Black, Defendant: You are hereby required to appear in an action brought against you by the above named plaintiff in the District Court of the Third Judicial District of the State of California, in and for the County of Alameda, and to answer the complaint filed therein within ten days (exclusive of the day of service), after the service on you of this summons (if served within this county, or if served out of this county but in this district within twenty days; otherwise within forty days), or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to recover from you the sum of Five Hundred Dollars in United States gold coin, with interest thereon from March 16th, 1876, at the rate of one and one half per cent. per month upon a promissory note, made and delivered by you to plaintiff, as will more fully appear by the complaint on file, a true reference to which is hereby made, and for costs of suit.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will take judgment against you for the sum of $500 five hundred dollars gold coin with interest as aforesaid and costs of suit.

Given under my hand and seal of the Third Judicial District Court of the State of California, in and for the County of Alameda, this 31st day of March in the year of our Lord one thousand eight hundred and seventy six.

CHARLES G. BELL, Clerk.

By JOHN MUIR, Deputy Clerk.
